Overview

Prepare for the CBAP® and CCBA® exams in this interactive Boot Camp.

Business analysis is achieving worldwide recognition as a profession in its own right. The Certification of Competency in Business Analysis (CCBA) and Certified Business Analysis Professional (CBAP) designations are marks of distinction for intermediate- and advanced-level practitioners, recognizing that you have the knowledge and skills necessary for effectiveness and a professional level of competence in business analysis principles and practices.

In this fun, challenging, and ultimately productive learning environment, our experts will share their knowledge and secrets for CBAP and CCBA certification success and help you upgrade yours. You will learn how to analyze and document your business analysis credentials and experience, submit a successful application for CBAP and CCBA certifications, and sanely and efficiently prepare for the exam. At the end of class, you'll be ready to pass either exam on your first try.

This interactive course includes:

- A comprehensive participant guide with slides, exercises, practice exam materials
- A Guide to the Business Analysis Body of Knowledge (BABOK® Guide), by IIBA
- The Complete CBAP 2.0 Study Guide, by Billie Johnson
