GreenOps Fundamentals Training

BILGINC IT Academy
info@bilginc.com
bilginc.com

Duration: **1 Day**

Delivered in partnership with the GreenOps experts at Synyega, This Cloud GreenOps Practitioner course is designed for professionals across IT, finance, procurement, sustainability, and leadership roles who want to gain, expand, and validate their GreenOps knowledge - and apply it to drive meaningful and measurable environmental impact across their organisation.

Prerequisites

Participants should have:

- A basic understanding of how cloud computing works
- A desire to learn more about Cloud GreenOps
- Awareness of sustainability goals and initiatives

Target Audience

Anyone who is interested in Sustainability and GreenOps.

What You Will Learn

By the end of this course, learners will be able to:

- Explain the core principles of GreenOps
- Identify and engage the right stakeholders in your organisation
- Recognise how GreenOps supports both cost efficiency and ESG reporting
- Understand how GreenOps complements and extends other frameworks
- Create a practical action plan to begin embedding GreenOps in your context
