# OpenText [Core] Capture for SAP® Solutions Learning Paths Training

Duration: **3 Day**

BILGINC IT Academy
info@bilginc.com
bilginc.com

This course will introduce the student to the unique offering of Capture Solutions for SAP. It will also highlight the main topics for both Intelligent Capture and Core Capture for SAP Solutions. Firstly, the course will detail the architecture scenarios and installation procedures. Next, it will cover SAP specific configuration. Lastly, the course moves into the typical scenarios for the processing of invoice and non-invoice documents through the OCR engine. Students will leave with the confidence to embark on an Capture Solutions for SAP implementation.
