Overview

The AgilePgM® training course is aimed at aspiring and practicing programme managers and team members wishing to adopt a disciplined, flexible and collaborative approach to the management of large-scale business transformation activities (programmes).

Developed by the Agile Business Consortium (formally DSDM Consortium), the new certification provides the ability to deliver Agile Programmes in organizations requiring standards, rigour and visibility around Programme Management, while at the same time enabling the fast pace, change and empowerment provided by Agile.

AgilePgM® provides programme managers with a disciplined but flexible agile approach to the management of transformational organizational change, allowing for iterative and incremental delivery of outputs and benefits.

AgilePgM® teaches you a disciplined but flexible agile approach to the management of organizational change – enabling you to play a crucial role in ensuring a programme captures its vision.

The governance model, contained within the guidance, ensures a programme will capture its vision, whilst empowering teams to work without undue interference. Built on firm foundations, the programme can evolve and react to business change in our increasingly dynamic world.

What is included?

In addition to the training, delegates will receive:

- The Agile Programme Management Foundation exam fee
- Full set of PowerPoint slides
- Case study and answer pointers
- APMG Agile Programme Management Handbook (Manual)

Prerequisites

Please note - this course does not cover the basics concerning the various Agile frameworks. This is specifically for Programme Managers who are overseeing an Agile Programme - which includes Agile projects.

There are no prerequisites for this course although it would be beneficial for delegates to have some practical experience of project work within an Agile environment.

Proof of identity

Delegates must bring signed photo ID to APMG examinations (e.g. passport, driving license, and student card) as they will be asked by the invigilator to produce it prior to the exam. Delegates must also be familiar with the APMG Terms and Conditions of Certification which can be found on the APMG International website.
